

**FOR IMMEDIATE RELEASE:**

## **Coastline Micro wins “2009 Top Overall Business Growth” and “2009 Top Business Growth – Desktop” awards at 2010 (ISS) Intel® Solutions Summit**

**Las Vegas, Nevada, March 17<sup>th</sup>, 2010** – At the (ISS) Intel® Solutions Summit, Coastline Micro Inc. received two distinguishing awards recognizing Coastline’s excellence in packaging, marketing, and selling Intel® solutions. The awards include “2009 Top Overall Business Growth” and “2009 Top Business Growth – Desktop.”

Coastline Micro’s awards are the result of their employee’s dedication to increase revenue within the desktops channels for resellers, government agencies, and educational institutions. Coastline has entered its 11<sup>th</sup> consecutive year as an Intel Channel Partner Premier Member.

With economic turbulence of 2009, the success and attainment of the awards could be a positive indicator for the future of this privately held company. Coastline Micro’s President, Mark Capobianco said, “During these harsh economic times, our Coastline team is honored to receive the Intel® Awards and we have celebrated our successes of 2009. Yet, we are not satisfied and currently re-energized, focused, and determined to find innovative ways to increase sales revenues for 2010.”

Capobianco attributes Coastline Micro’s achievements to his hard working employees and their ability to efficiently package, market, and sell integrated Intel® solutions across North America.

Over the last 21 years, Coastline Micro, Inc. has provided resellers custom computer storage and server solutions. Coastline Micro’s partnership with companies like Intel® and Microsoft has created a powerful relationship committed to providing exceptional products and services to resellers across North America.
